INTRODUCTION

This document contains or identifies the various elements, documents, and sources comprising the complete and official record of Council meeting discussions and actions. In addition to the Meeting Summary, which follows this introductory section (see #7 below), it includes information or references that serve as the functional detailed minutes for this Council meeting as required by §302(i)(2)(E) of the Magnuson-Stevens Act. The full record is maintained at the Council office, is available on the Council website (<http://www.pcouncil.org/>) or upon request from the Council office, and consists of the following:

1. **Meeting Notice and Proposed Agenda** – These documents are available on the Council Website prior to and following each meeting at <http://www.pcouncil.org/>.
2. **Attendance Records** – These documents are available for the Council meeting and each advisory body meeting by request from the Council office.
3. **All Documents, Reports, and Presentations for Council Consideration** – These items include (1) all documents produced or received for the meeting briefing book, validated by a label assigned by the Council Secretariat and distributed to Council Members; (2) written public comments received at the Council meeting in accordance with agenda labeling requirements; and (3) electronic material or handout materials used in presentations to Council Members during the open session. They are available from links in the Meeting Summary of this document or at <https://www.pcouncil.org/council-meetings/previous-meetings/>.
4. **Council Decisions Summary Document** – This document is distributed shortly after each Council meeting. It provides very brief descriptions of most key Council decisions and is available at <https://www.pcouncil.org/council-meetings/previous-meetings/> and also provided by agenda item in the Meeting Summary of this document.
5. **Draft or Final Decision Documents Finalized after the Council Meeting** – Documents such as Environmental Impact Statements or Environmental Assessments are available on the Council website as they are completed.
6. **Gavel-to-Gavel Audio Recordings and Summary Transcripts** – These recordings contain the testimony, presentations, discussions, and actions occurring at the meeting and are labeled by date and time (e.g., 04-11-15am1) and have been annotated as to the time on the recording for the start of each agenda line item to help facilitate review. For additional reference, verbatim transcripts of Council Actions are available on the Council website. The recordings and transcripts may be accessed from the links contained within the Meeting Summary of this document or at <https://www.pcouncil.org/council-meetings/previous-meetings/>.
7. **Meeting Summary** (immediately follows this section) – The Meeting Summary lists, in agenda item order, the briefing book documents, reports, presentations, and Council motions and actions, including a brief summary from the Council Decisions Summary Document for each agenda item. It constitutes the meeting record formally approved by the Council. The agenda heading for each agenda item, and most listed documents, serve as internet links to the actual briefing book documents. Internet links in brackets (e.g., [mp3: [11-11-14pm1 @01:21:15](#)]) refer to the audio recording and elapsed time on the recording at which the agenda item was initiated. Links to the audio recordings are annotated by agenda item and may also be accessed at <https://www.pcouncil.org/council-meetings/previous-meetings/>.
8. **Voting Log** – The voting log lists, in Agenda order, the summarized Council motions and actions for each agenda item that took place during the meeting.

- Oregon recreational fisheries in Table 2 beginning on page 20
 - Cape Falcon to OR/CA Border
- Alternative 2: All-salmon mark-selective coho fishery
- Replace the three bullets with:
- June 19 through the earlier of August 28 or the Cape Falcon to OR/CA Border quota of 115,000 marked coho.
 - Closed to Chinook retention from Cape Falcon to Humbug Mt. from August 16 through August 31.
 - Closed to Chinook retention from Humbug Mt. to OR/CA Border beginning July 14.

- In the season specifications paragraph strike “Closed to Chinook retention from Cape Falcon to Humbug Mt. beginning August 16.”
- Humbug Mt. to OR/CA Border (Oregon KMZ)

Alternative 1:

- For the bullet that reads “June 12-18 and August 16- 28 or the earlier of the Cape Falcon to OR/CA Border quota of 120,000 marked coho.” replace the period at the end of the sentence with “; closed to retention of Chinook.”

Alternative 2:

- For the bullet that reads “July 14- August 28 or the earlier of the Cape Falcon to OR/CA Border quota of 115,000 marked coho.” replace the period at the end of the sentence with “; closed to retention of Chinook.”

Each alternative included a landing and possession limit of one halibut for every two Chinook, plus one additional halibut in excess of the possession/landing ratio. The possession/landing limit per trip ranged from 25 to 35 halibut among the three options. The Council is scheduled to adopt a final alternative at its April meeting.

The Council's final recommendation for the 2021 incidental halibut catch restrictions in the fixed gear fishery north of Point Chehalis from April 1 through October 31 was to set the limit at 225 pounds of dressed weight halibut for every 1,000 pounds dressed weight of sablefish, plus 2 additional halibut in excess of the ratio, which was consistent with the [Groundfish Advisory Subpanel report](#).

Heather Hall/Phil Anderson (Motion 10 carried unanimously)

Motion 11 [[mp3: 3-8-21pm1](#) 01:35:01]: Council approve Agenda Item A.4 as amended.
Phil Anderson/Pete Hassemer (Motion 11 carried unanimously)

Staff Summary: The Council added three new items to the list of unprioritized groundfish management measures as shown in Table B of [GMT Report 1](#). The new items are:

- Prohibition on directed fishing for shortbelly rockfish
- Lingcod trip limit adjustments N of 40° 10' N. latitude in the salmon troll fishery
- Cowcod Conservation Area (CCA) Modification

A public proposal for a prohibition on directed fishing for shortbelly rockfish will be considered for inclusion in the 2023-2024 groundfish harvest specifications and management measure process. The lingcod trip limit measure proposed by the [Salmon Advisory Subpanel](#) and as described in [Supplemental GMT Report 2](#), will be scoped in April by the Groundfish Management Team (GMT) to determine if the proposal can be completed through routine inseason action. The CCA area modification [proposes](#) to repeal the CCAs and decouples the CCA area modification issue from the non-trawl rockfish conservation area modification scoping process scheduled for April 2021. The Council considered, but did not add to Table B, reactivation of an Ad Hoc Cost Recovery Committee. The Council also directed staff and the GMT to make corrections to the list of unprioritized actions to better clarify the measures in that table.

The Council maintained mothership utilization and non-trawl rockfish conservation area/Emley-Platt exempted fishing permit regulation items as priorities.

The Council also added an item to the March agenda and prioritized its development at this meeting: Emergency Rule to Consider Changing Seasonal Processing Limitations in the At-Sea Whiting Fishery (see [G.6](#)).

- Alternative 1: A vessel can be registered to a mothership permit and a catcher-processor permit in the same calendar year

- Sub-option A: A vessel can switch between the mothership sector and catcher-processor sector up to two times during the calendar year through permit transfer
- Sub-option B: A vessel can switch between the mothership sector and catcher-processor sector up to four times during the calendar year through permit transfer
- Sub-option C: Unlimited transfers

Maggie Sommer/Phil Anderson (Motion 13 carried unanimously)

Staff Summary: The Council adopted a final purpose and need statement proposed by [Washington Department of Fish and Wildlife and Oregon Department of Fish and Wildlife](#) as well as the following range of alternatives for analysis and public review:

1. Whiting Season Start Date (for all whiting sectors)

- Status Quo: May 15

Corey Niles/Phil Anderson

Amendment 1 [[mp3: 3-9-21pm2 01:03:15](#)]: Strike “during the 2021 Pacific Whiting fishery, and that they do so using the most efficient pathway available and such that the change is effective by May 15 or as expeditiously as possible thereafter”.

Marci Yaremko/Marc Gorelnik (Amendment 1 failed, Ms. Yaremko, Mr. Hassemer, and Mr. Gorelnik voted yes, Mr. Moore did not provide a vote).

Motion 14 carried (Ms. Ames and Ms. Yaremko voted no)

Staff Summary: The Council modified the March agenda to allow consideration of an emergency action to allow an at-sea Pacific whiting processing platform to operate as both a mothership and a catcher-processor in the same calendar year during the 2021 Pacific whiting fishery. This action was taken at the [request of industry representatives](#) and the [Groundfish Advisory Subpanel](#) to prevent fishery disruption if a mothership processor decides to abandon that sector this year to mitigate their risk associated with the current COVID-19 pandemic. Such a disruption would otherwise leave catcher vessels in the mothership sector without a processing platform, potentially stranding their whiting quota, which would result in significant economic impacts. Allowing a catcher-processor vessel to temporarily operate as an at-sea processor in the mothership sector mitigates the impacts associated with the current processing limitations in these two sectors.

Motion 16 [[mp3: 3-10-21am2 01:15:40](#)]: Council recommend the following to clarify and modify the FMP amendment for the purpose of implementing regulations authorizing a Limited Entry Deep-Set Buoy Gear (LE DSBG) Permit:

- 1) That a LE DSBG permit may be held by a “person” as defined in 50 CFR 660.702
 - a. that transfers be prohibited, and
 - b. that NMFS develop regulatory language that prohibits changes to the makeup of a permit holding corporation, partnership, or other entity that would constitute a “transfer” for entities other than individuals, except in the case of death of the originally qualified individual, as described in CDFW Supplemental Report 1.
- 2) Allow a one-time transfer of LE DSBG permits upon death of the permittee to a family member as described in CDFW Supplemental Report 1.
- 3) For the purpose of LE DSBG Permit qualification, define an “EFP holder” as described in CDFW Supplement Report 1 to include:
 - a. Any individual with NMFS approval to captain a commercial vessel and use DSBG under the authority of an EFP; or
 - b. Any individual who is identified by NMFS as having managed a DSBG EFP, including vessel owners whose vessel fished under authority of a DSBG EFP.
- 4) Identify LE DSBG permit qualifiers and accept applications during a single pre-determined period defined by NMFS for Tiers 1 through 8. Rank applicants within Tiers as described in CDFW Supplemental Report 1:
 - a. Tiers 1-5 based on their total swordfish landings within the time period for that Tier.
 - b. Tiers 6-9 on a first come, first served basis.
- 5) Modify the LE DSBG Permit Qualification Criteria to those found in CDFW Supplemental Report 1.

John Ugoretz/Bob Dooley (Motion 16 carried unanimously)

Staff Summary: Based on questions and proposed interpretations in [NMFS Reports 1](#) and [2](#), the Council adopted the following clarifications to its proposed measures for authorizing deep-set buoy gear (DSBG) adopted in September 2019:

- Confirmed that a DSBG limited entry permit may be held by a person as defined [50 CFR 660.702](#), which includes corporations, partnerships, or other entities, but in all cases permit transfers are prohibited except for a one-time transfer to a family member upon the death of an individual permit holder. In cases where an entity holds a permit, transfers by means of changes in the ownership of the entity will be prohibited.
- Clarified that for the purpose of limited entry DSBG permit qualification, “EFP holder” means vessel operators on board when DSBG was used or individuals identified as having managed the exempted fishing permit (EFP) including owners of vessels to which the EFP was assigned.
- Supported the NMFS recommendation for a single qualification period but included Tier 8 (see description below). Ranking within tiers would be based on total swordfish landings for Tiers 1-5 and on a first come, first served basis for the remaining tiers.

The Council modified the DSBG limited entry permit qualification tiers so that they read as follows:

1. EFP holders, with at least 10 documented calendar days of DSBG fishing effort by December 31, 2018. Documentation shall consist of a West Coast Observer Program record indicating either:

- a. the EFP holder as vessel captain for that fishing day; or
 - b. fishing effort for that day conducted on a vessel owned by or under the EFP managed by that individual.
2. California Drift Gillnet (DGN) Shark and Swordfish permit holders who made at least one large mesh DGN swordfish landing between the 2013-2014 and 2017-2018 fishing seasons and surrender their state or Federal DGN permit as part of a DGN permit trade-in or buy-back program.
3. EFP holders approved by the Council prior to April 1, 2021 who conducted at least 10 calendar days of DSBG fishing effort or with 10 days of DSBG effort on their vessel or by vessels they manage under the EFP by the effective date of the Final Rule authorizing DSBG. Documentation shall consist of a NMFS West Coast Observer Program record or a properly submitted NMFS DSBG logbook indicating either:
 - a. the EFP holder as vessel captain for that fishing day; or
 - b. fishing effort for that day was conducted on a vessel owned by or under the EFP managed by that individual.
4. California General Swordfish permit holders who possessed a permit during the 2018-2019 fishing season and made at least one swordfish landing using harpoon gear between the 2013-2014 and 2017-2018 fishing seasons.
5. California DGN Shark and Swordfish permit holders who have made at least one large-mesh DGN swordfish landing between the 2013-2014 and 2017-2018 fishing seasons and who did not surrender their state or Federal DGN permit as part of a trade-in or buy-back program.
6. California DGN Shark and Swordfish permit holders who have not made a swordfish landing with large-mesh DGN gear since March 31, 2013 and who surrender their state or Federal DGN permit as part of a permit trade-in or buy-back program.
7. State or Federal DGN Limited Entry (LE) permit holders who have not made a swordfish landing with DGN gear since March 31, 2013 and did not surrender their DGN LE permit as part of a state or Federal DGN permit trade-in or buy-back program.
8. Any individual with documented commercial swordfish fishing experience between January 1, 1986 and the effective date of the final rule on a first come first served basis. The basis for documenting commercial swordfish fishing experience attributable to the applicant will be possession of a valid commercial fishing license on that date and either:
 - a. A valid California Department of Fish and Wildlife fish landing receipt identifying the individual as the fisherman of record; or
 - b. A valid state or Federal logbook where swordfish were taken and identifying the individual as captain or crew on that day; or
 - c. A signed affidavit from a vessel owner or captain identifying the individual as vessel captain or crew on the day that swordfish were taken.
9. Any individual on a first come first served basis.

Motion 18 [[mp3: 3-10-21pm2 00:20:51](#)]: Council:

1. Adopt the Report on Regional Workshops as one of the products developed during the CCI.
2. Task the Core Team to provide a brief summary and synthesis report to the Council at the September 2021 meeting that includes:
 - a. Consideration of the 9 priority action areas summarized in the Report on Regional Workshops; prioritize the action areas for PFMC action, and for action by non-PFMC partners.
 - b. Recommendations on next steps by Council and Council AB's/MT's (potentially including NMFS FSC's & WCR); may also include recommendations for additional FEP Initiative concepts for consideration.

3. Task the Core Team to provide a briefing workshop on the summary/synthesis report to Council AB's/MT's prior to the September 2021 meeting.
4. Consider FEP Initiatives in March 2022, as scheduled.
5. Task Council staff to prepare a letter for submission to NMFS in response to the call for information on climate-resilient fisheries (per Sam Rauch presentation to the Council on March 8, 2021; relating to President Biden Executive Order 14008). Letter for timely submission in April 2021, and to include:
 - a. Brief list of recent activities of the PFMC to prepare fisheries for climate-resilience, including links to CCI reports already completed.
 - b. Highlight the in-progress work on climate-resilient fisheries.
 - i. Preview the CCI conclusion in September 2021.
 - ii. Preview the FEP review process, including Chapter 5 (as described in March 2021, Agenda Item I3, Supplemental EWG Report 3).
 - c. Confirm that the PFMC appreciates that NMFS intends for this to be an on-going collaboration with the PFMC.
 - d. Indicate that NMFS support of PFMC's climate work is needed, both intellectually and financially.

Caren Braby/Brad Pettinger (Motion 18 carried, Mr. Lockhart abstained)

Staff Summary: The Council adopted the *Report on Regional Workshops focusing on the Implications of Climate Change for West Coast Fisheries and Fishing Communities* and directed the Ad Hoc Climate and Communities Core Team to prepare a brief summary and synthesis report to the Council for its September 2021 meeting. The summary report should include consideration of the priority actions in the Report on Regional Workshops and recommendations on future related activities, which may be in the form of Fishery Ecosystem Plan (FEP) Initiatives. The Core Team will also conduct a workshop to brief Council advisory bodies on its synthesis report before the September 2021 Council meeting.

The Council also directed staff to draft a letter responding to NMFS' call for information on climate-resilient fisheries per Section 206(c) in [Executive Order 14008](#) Tackling the Climate Crisis at Home and Abroad (see Legislative Matters).

Motion: None

Staff Summary: The Council directed the Ad Hoc Ecosystem Workgroup (EWG) to prepare a final draft of the revised FEP for review by the Council at its September 2021 meeting. The EWG should also provide a complete draft of the stand-alone document, *Guidance Document on Offshore Non-Fishing Activities*. In doing so, the EWG should consider recommendations made by the Council and contained in advisory body reports for [this agenda item](#) and, as appropriate, note how those recommendations were addressed.

The Council directed the EWG to develop concepts for an “ecosystem-level performance report,” which would be a periodic reporting mechanism to track progress towards the goals and objectives listed in [Chapter 1 of the revised FEP](#). These concepts could then form the basis for a candidate initiative that the Council would undertake at a future date.

VOTING LOG

Motion 1: Adopt [Agenda Item A.4, March 2-11, 2021 Council Meeting Agenda](#).
Phil Anderson/ Bob Dooley (Motion 1 carried unanimously)

Motion 2: Council adopt the 2021 abundance forecasts, acceptable biological catches, annual catch limitss and OFLs as presented in [Agenda Item E.3, Preseason Report I](#).
Kyle Adicks/Chris Kern (Motion 2, as amended, carried unanimously)

Motion 3: Council tentatively adopt for STT collation and analysis the proposed initial salmon management alternatives for the 2021 non-Indian commercial and recreational ocean fisheries as developed by the Salmon Advisory Subpanel and presented in [Agenda Item E.4.e, Supplemental SAS Report 1](#), dated March 4, 2021 including the commercial and recreational requirements, definitions, restrictions, or exceptions.

Brett Kormos/Kyle Adicks (Motion 3 carried unanimously)

Motion 4: Council adopt for STT analysis the following initial Treaty Troll salmon management measures:

- Makah
 - Alternative 1: 50,000 Chinook and 50,000 coho
 - Alternative 2: 35,000 Chinook and 35,000 coho
 - Alternative 3: 0 Chinook and 0 coho
- Quinault Treaty Area:
 - Alternative 1: 35,000 Chinook and 16,500 coho
 - Alternative 2: 25,000 Chinook and 10,000 coho
 - Alternative 3: 0 Chinook and 0 coho
- The alternatives consist of a May 1-June 30 Chinook directed fishery and a July 1-September 15 all-species fishery. The chinook quota should be evenly split between the two time periods.

Joe Oatman/Butch Smith (Motion 4 carried unanimously)

Motion 5: Council adopt for public review the alternatives presented in [Agenda Item F.2.a, Supplemental SAS Report 1](#), March 2021 for halibut landing restrictions in the 2021 salmon troll fishery beginning May 16 and for April 1 – May 15, 2022, and recommend no change to the current incidental Pacific halibut retention limits for the salmon troll fishery for the period April 1 - May 15, 2021.

Maggie Sommer/Virgil Moore (Motion 5 carried unanimously)

Motion 6: Council adopt a final trip limit ratio of 225 pounds of Pacific halibut per 1,000 pounds of sablefish plus 2 additional Pacific halibut for the primary sablefish fishery north of Point Chehalis, Washington, as recommended in [Supplemental GAP Report 1](#) under Agenda Item F.2.a, March 2021.

Heather Hall/Marci Yaremko (Motion 6 carried unanimously)

Motion 7: Council add an item titled Prohibition on Directed Fishing for Shortbelly Rockfish to the list of potential groundfish management measures; and consider in June 2021 whether to include it in the 2023-2024 Groundfish Harvest Specifications and Management Measures.

Maggie Sommer/Phil Anderson (Motion 7 carried unanimously)

Motion 8: Council adopt, from reports in Agenda Item G.2:

1. Corrections/clarifications to Appendix 2, Table B, per [GMT Reports 1 & 2](#).
2. Decouple the Cowcod Conservation Area piece from the non-trawl (NT) Rockfish Conservation Area item, as described in the [CDFW report](#) and supported by the GAP, so

that there will be a stand-alone item to repeal the Cowcod Conservation Area listed on Table B.

3. Continue to maintain MS utilization and the NT-Emley-Platt on Table A as priority items, as recommended [by the GAP](#).
4. Add the following new item to Table B: Lingcod trip limit adjustment N of 40° 10' in the salmon troll fishery.

Marci Yaremko/Bob Dooley (Motion 8 carried unanimously)

Motion 9: Council to reconsider its action taken under Agenda Item A.4 Approval of the Agenda
Pete Hassemer/Phil Anderson (Motion 9 carried unanimously)

Motion 10: Council add another agenda item to the March 2021 Council Meeting Agenda to consider an emergency action that would allow an at-sea Pacific Whiting processing platform to operate as both a mothership and a catcher-processor in the same calendar year during the 2021 whiting fishery.

Heather Hall/Phil Anderson (Motion 10 carried unanimously)

Motion 11: Council approve [Agenda item A.4 as amended](#).

Phil Anderson/Pete Hassemer (Motion 11 carried unanimously)

Motion 12: Council adopt the Purpose and Need statement for Pacific whiting utilization presented in [Agenda Item G.3.a, Supplemental WDFW-ODFW Report 1, March 2021](#).

Maggie Sommer/Pete Hassemer (Motion 12 carried unanimously)

Motion 13: Council adopt the following range of alternatives for Pacific whiting utilization for analysis and public review:

1. Whiting Season Start Date (for all whiting sectors)
 - Status Quo: May 15
 - Alternative 1: May 1
 - Annual cooperative applications and Salmon Mitigation Plans due 45 days prior to the season start date
2. Mothership Processor Obligation
 - Status Quo: Mothership processor obligation made by November 30 through mothership catcher vessel endorsed limited entry permit renewal
 - Alternative 1: Remove mothership processor obligation from regulation
3. Mothership Processor Cap
 - Status Quo: 45 percent
 - Alternative 1: 65 percent
 - Alternative 2: 85 percent
 - Alternative 3: Remove mothership processor cap from regulation
4. Mothership Processor & Catcher-Processor Permit Transfer
 - Status Quo: A vessel cannot be registered to a mothership permit and a catcher-processor permit in the same calendar year
 - Alternative 1: A vessel can be registered to a mothership permit and a catcher-processor permit in the same calendar year

- Sub-option A: A vessel can switch between the mothership sector and catcher-processor sector up to two times during the calendar year through permit transfer
- Sub-option B: A vessel can switch between the mothership sector and catcher-processor sector up to four times during the calendar year through permit transfer
- Sub-option C: Unlimited transfers

Maggie Sommer/Phil Anderson (Motion 13 carried unanimously)

Motion 14: National Marine Fisheries Service make the necessary changes to allow an at-sea Pacific Whiting processing platform to operate as both a mothership and catcher-processor during the 2021 Pacific Whiting fishery, and that they do so using the most efficient pathway available and such that the change is effective by May 15 or as expeditiously as possible thereafter so as to achieve the intended effect of business certainty and operational flexibility. Corey Niles/Phil Anderson (Motion 14 carried, Ms. Ames and Ms. Yaremko voted no)

Motion 15: Council adopt the action plan for [Agenda Item H.2, Attachment 1](#) and consider the recommendations in [Supplemental HMSMT Report 1](#), as well as Council discussion in moving EFH review forward.

Caren Braby/John Ugoretz (Motion 15 carried unanimously)

Motion 16: Council recommend the following to clarify and modify the FMP amendment for the purpose of implementing regulations authorizing a Limited Entry Deep-Set Buoy Gear (LE DSBG) Permit:

- 1) That a LE DSBG permit may be held by a “person” as defined in 50 CFR 660.702
 - a. that transfers be prohibited, and
 - b. that NMFS develop regulatory language that prohibits changes to the makeup of a permit holding corporation, partnership, or other entity that would constitute a “transfer” for entities other than Individuals, except in the case of death of the originally qualified individual, as described in [CDFW Supplemental Report 1](#).
- 2) Allow a one-time transfer of LE DSBG permits upon death of the permittee to a family member as described in [CDFW Supplemental Report 1](#).
- 3) For the purpose of LE DSBG Permit qualification, define an “EFP holder” as described in [CDFW Supplement Report 1](#) to include:
 - a. Any individual with NMFS approval to captain a commercial vessel and use DSBG under the authority of an EFP; or
 - b. Any individual who is identified by NMFS as having managed a DSBG EFP, including vessel owners whose vessel fished under authority of a DSBG EFP.
- 4) Identify LE DSBG permit qualifiers and accept applications during a single pre-determined period defined by NMFS for Tiers 1 through 8. Rank applicants within Tiers as described in [CDFW Supplemental Report 1](#):
 - a. Tiers 1-5 based on their total swordfish landings within the time period for that Tier.
 - b. Tiers 6-9 on a first come, first served basis.
- 5) Modify the LE DSBG Permit Qualification Criteria to those found in [CDFW Supplemental Report 1](#).

John Ugoretz/Bob Dooley (Motion 16 carried unanimously)

Motion 17: Council approve the maximum fishing mortality threshold proxy and the second proxy proposed for minimum stock size threshold in Option 3 of the NMFS Report 1 as applicable to status determinations for EPO yellowfin and bigeye tuna stocks based on probabilistic framework assessments, as conveyed as being reasonable in the supplemental SSC report and recommended in the HMSMT report.

John Ugoretz/Caren Braby (Motion 17 carried unanimously)

Motion 18: Council:

1. Adopt the [Report on Regional Workshops](#) as one of the products developed during the CCI.
2. Task the Core Team to provide a brief summary and synthesis report to the Council at the September 2021 meeting that includes:
 - a. Consideration of the 9 priority action areas summarized in the [Report on Regional Workshops](#); prioritize the action areas for PFMC action, and for action by non-PFMC partners.
 - b. Recommendations on next steps by Council and Council AB's/MT's (potentially including NMFS FSC's & WCR); may also include recommendations for additional FEP Initiative concepts for consideration.
3. Task the Core Team to provide a briefing workshop on the summary/synthesis report to Council AB's/MT's prior to the September 2021 meeting.
4. Consider FEP Initiatives in March 2022, as scheduled.
5. Task Council staff to prepare a letter for submission to NMFS in response to the call for information on climate-resilient fisheries (per Sam Rauch presentation to the Council on March 8, 2021; relating to President Biden Executive Order 14008). Letter for timely submission in April 2021, and to include:
 - a. Brief list of recent activities of the PFMC to prepare fisheries for climate-resilience, including links to CCI reports already completed.
 - b. Highlight the in-progress work on climate-resilient fisheries.
 - i. Preview the CCI conclusion in September 2021.
 - ii. Preview the FEP review process, including Chapter 5 (as described in March 2021, Agenda Item I3, Supplemental EWG Report 3).
 - c. Confirm that the PFMC appreciates that NMFS intends for this to be an on-going collaboration with the PFMC.
 - d. Indicate that NMFS support of PFMC's climate work is needed, both intellectually and financially.

Caren Braby/Brad Pettinger (Motion 18 carried, Mr. Lockhart abstained)

Motion 19: Council approve the November 2020 meeting record as shown in [Agenda Item C.4, Attachment 1: Draft Council Meeting Record: 257th Session of the Pacific Fishery Management Council \(November 9-10, 12-13, & 16-20, 2020\)](#).

Christa Svensson/Virgil Moore (Motion 19 carried unanimously)

Motion 20: Council appoint Dr. Michele Zwartjes to the U.S. Fish and Wildlife Service position on the Groundfish Endangered Species Workgroup formerly held by Ms. Robin Bown.

Louis Zimm/Bob Dooley (Motion 20 carried unanimously)

Motion 21: Council to adopt for STT collation, analysis and public review the salmon management measures for the 2021 commercial and recreational ocean fisheries in the area from the Oregon/California border to the U.S./Mexico border as presented in [Agenda Item E.8.a, Supplemental STT Report 1](#), dated March 11, 2021, including the commercial and recreational requirements, definitions, restrictions, and exceptions.

Brett Kormos/Louis Zimm (Motion 21 carried unanimously)

Motion 22: Council to adopt for public review alternatives for ocean commercial non-Indian troll and ocean recreational salmon fisheries between Cape Falcon and the Oregon-California Border as described in [Agenda Item E.8.a, Supplemental STT Report 1](#), dated March 11, 2021 with the following modifications.

- Oregon recreational fisheries in Table 2 beginning on page 20
 - Cape Falcon to OR/CA Border
Alternative 2: All-salmon mark-selective coho fishery
Replace the three bullets with:
 - June 19 through the earlier of August 28 or the Cape Falcon to OR/CA Border quota of 115,000 marked coho.
 - Closed to Chinook retention from Cape Falcon to Humbug Mt. from August 16 through August 31.
 - Closed to Chinook retention from Humbug Mt. to OR/CA Border beginning July 14.
- In the season specifications paragraph strike “Closed to Chinook retention from Cape Falcon to Humbug Mt. beginning August 16.”
 - Humbug Mt. to OR/CA Border (Oregon KMZ)
Alternative 1:
 - For the bullet that reads “June 12-18 and August 16- 28 or the earlier of the Cape Falcon to OR/CA Border quota of 120,000 marked coho.” replace the period at the end of the sentence with “; closed to retention of Chinook.”
 - Alternative 2:
 - For the bullet that reads “July 14- August 28 or the earlier of the Cape Falcon to OR/CA Border quota of 115,000 marked coho.” replace the period at the end of the sentence with “; closed to retention of Chinook.”
- In the season specifications paragraph, replace “(June 19-August 15)” with “(June 19-August 28)”

Chris Kern/Christa Svensson (Motion 22 carried unanimously)

Motion 23: Council to adopt for public review the alternatives for non-Indian commercial and recreational fisheries in the area North of Cape Falcon as presented in [Agenda Item E.8.a, Supplemental STT Report 1](#), dated March 11, 2021.

Kyle Adicks/Phil Anderson (Motion 23 carried unanimously)

Motion 24: Council adopt for public review both the Quinault Treaty Area (QTA) Tribes and the Makah Tribe’s proposed salmon management alternatives for the 2021 tribal ocean fisheries as described in [Agenda Item E.8.a, Supplemental STT Report 1](#), Table 3a and 3b, dated March 11, 2021.
